To Whom It May Concern:

Sugar Farms Coop, a Florida Crystals Company, has been using large volume Axial Flow Pumps from Farmers Manufacturing Company, for over twenty years. Since 1996, Sugar Farms has purchased and installed twenty nine (29) Axial Flow pumps from Farmers Manufacturing Company, ranging in size from 24" to 36".

We have found Farmers Pumps to be the most reliable, economical and efficient Axial Flow pumps available. Also Farmers Pumps to out perform and outlast more expensive bidder for our pumps needs, but because of their performance and economy, Sugar Farms now purchases Axial Flow pumps exclusively from Farmers Mfg. We anticipate continuing our relationship with Farmers Mfg. For many years to come.

Sincerely.
